

# ACADEMIC ALLIES PROGRAM

## Students in Canada Helping Students in Malawi!

CPAR recently launched our new 'Academic Allies' program, in which Canadian students can directly support primary schools in Malawi through our Green Schools Network project. The Green Schools Network is a collection of primary schools with improved vegetative cover that, together, create a greener and healthier Malawi. Students will learn about some of the challenges children experience in developing countries, such as Malawi, and will receive resources and lessons about how to make a positive difference in the world.
